

I'm a Toronto-based Picture Editor with twenty years of experience cutting both documentary and scripted projects. My work has premiered at SXSW and Hot Docs, streamed on Amazon, Hulu, and Showtime, and aired on PBS, Vice, A&E, BBC, Nat Geo, History, Bravo and more. On every project I bring not only a cinematic and thoughtful approach to storytelling, but also a distinct style influenced by my passion for art, music and graphic design. I'm also equally known for my calm energy in the suite. For more information on any of my work, click on the titles below.
